(Copyright, 1889.)

NEW YORK CITY, U. S. A.
PUBLISHED BY THE INSTITUTE,
At its Office, 5 Beekman Street.

NOTICE.

The Institute as a body is not responsible either for the statements made, or for the opinions expressed, in the following pages.

McILROY & EMMET, Steam Printers, 56 Cortlandt St., New York.

OFFICERS AND MEMBERS OF THE COUNCIL.

1889-90.

PRESIDENT:

PROF. ELIHU THOMSON,
Term expires 1890.

PAST-PRESIDENTS:

DR. NORVIN GREEN, 1884-5-6.
FRANKLIN L. POPE, 1886-7.
T. COMMERFORD MARTIN, 1887-8
EDWARD WESTON, 1888-9.

VICE-PRESIDENTS:

DR. LOUIS DUNCAN,
Term expires 1890.

FRANCIS R. UPTON,
Term expires 1890.

T. COMMERFORD MARTIN,
Term expires 1890.

EDWARD WESTON,
Term expires 1891.

MAJOR O. E. MICHAELIS, U. S. A.
Term expires 1891.

PROF. EDWARD L. NICHOLS,
Term expires 1891.

MANAGERS:

DR. SCHUYLER S. WHEELER,
Term expires 1890.

JOSEPH WETZLER,
Term expires 1890.

FRANCIS B. CROCKER,
Term expires 1890.

JOHN W. HOWELL,
Term expires 1890.

CHARLES CUTTRISS,
Term expires 1891.

GEORGE B. PRESCOTT, JR.,
Term expires 1891.

THOMAS D. LOCKWOOD,
Term expires 1891.

WILLIAM MAVER, JR.,
Term expires 1891.

DR. F. BENEDICT HERZOG,
Term expires 1892.

PROF. WM. E. GEYER,
Term expires 1892.

H. C. TOWNSEND,
Term expires, 1892.

HENRY VAN HOEVENBERGH,
Term expires 1892.

TREASURER:

GEORGE M. PHELPS,
150 Broadway, New York.

SECRETARY:

RALPH W. POPE,
5 Beekman Street, New York.

Terms expire 1890.

BOARD OF EXAMINERS:

W. B. VANSIZE, Chairman.

F. W. JONES,
C. O. MAILLOUX,
E. T. BIRDSALL,
EDWARD P. THOMPSON

CONTENTS.

FRONTISPIECE.—Portrait of Thomas Commerford Martin, Third President of the Institute.—1887–8.

SPECIAL MEETING, November 13th, 1888. PAGE.

The Geyer-Bristol Meter for Direct and Alternating Currents.—(Illustrated.) By Prof. William E. Geyer, of Hoboken, N. J. Discussion by Prof. Alfred M. Mayer, Dr. Schuyler S. Wheeler, Francis B. Crocker, Carl Hering, Dr. P. H. Vander Weyde, C. O. Mailloux, Townsend Wolcott, Dr. Otto A. Moses. 2

The Abdank Magnetic Call and the Abdank Integraph. (Illustrated.) By B. Abdank-Abakanowicz, of Paris, France. Discussion by Prof. Wm. E. Geyer, Townsend Wolcott, Carl Hering, Captain Otho E. Michaelis, Dr. P. H. Vander Weyde, C. O. Mailloux, Dr. Schuyler S. Wheeler, T. Commerford Martin..... 13

SPECIAL MEETING, December 18th, 1888.

Six Years' Practical Experience with the Edison Chemical Meter. (Illustrated.) By W. J. Jenks, of New York. Discussion by Charles S. Bradley, Ralph W. Pope, Prof. Edward P. Roberts, Dr. Schuyler S. Wheeler, Francis B. Crocker, Lewis F. Lyne, John W. Howell, Francis R. Upton, E. T. Birdsall, C. L. Edgar, Jo. Stanford Brown, Charles Wirt, Geo. M. Phelps.... 26

SPECIAL MEETING, January 8th, 1889.

Lightning Arresters and the Photographic Study of Self-Induction. (Illustrated.) By Edward G. Acheson, of Pittsburg, Pa. Discussion by Dr. Otto A. Moses, E. T. Birdsall, Leonidas Le C. Hamilton, Lemuel Wm. Serrell, Joseph Wetzler, Prof. Wm. E. Geyer, Charles Cuttriss, Dr. Allan V. Garratt, Holbrook Cushman, Francis W. Jones..... 74

SPECIAL MEETING, February 12th, 1889.

A New System of Multiplex Telegraphy. (Illustrated.) By Lieut. F. Jarvis Patten, of New York City. Discussion by Ralph W. Pope, Patrick B. Delany, C. J. Kintner, B. C. Batcheller, C. O. Mailloux, Francis B. Crocker, E. C. Davidson, M. Abdank-Abakanowicz... 111

Lightning Arresters and the Photographic Study of Self-Induction. (Illustrated.) Notes on E. G. Acheson's paper, by Jo. Stanford Brown and Charles T. Child, of New York City..... 135
Reply to the above notes by E. G. Acheson..... 146

SPECIAL MEETING, March 12th, 1889.

The Efficiency of Methods of Artificial Illumination. (Illustrated.) By Prof. Edward L. Nichols, of Ithaca, N. Y. Discussion by Francis R. Upton, Dr. Otto A. Moses, Joseph Wetzler, C. O. Mailloux, Dr. Schuyler S. Wheeler, R. S. Dobbie, E. T. Birdsall, T. Commerford Martin..... 158

GENERAL MEETING, May 22nd, 1889.

Some Results With Secondary Batteries in Train Lighting. (Illustrated.) By Alexander S. Brown, of Elizabeth, N. J. Discussion by George B. Prescott, Jr., C. O. Mailloux, Wm. H. Peirce, Prof. Edward L. Nichols, Prof. Elihu Thomson, W. B. Vansize..... 205

The Inherent Defects of Lead Secondary Batteries. (Illustrated.) By Dr. Louis Duncan and H. Wiegand, of Baltimore, Md. Discussion by Prof. Elihu Thomson, Prof. Edward P. Roberts, Townsend Wolcott, Francis B. Crocker..... 217

Electric Motor Regulation. (Illustrated.) By Francis B. Crocker, of New York City. Discussion by Major O. E. Michaelis, Townsend Wolcott, Edward Weston, Dr. Schuyler S. Wheeler, Joseph Wetzler, C. O. Mailloux, Prof. E. P. Roberts, Prof. Edward L. Nichols, Prof. Elihu Thomson.....

Magnetism in Its Relation to Induced Electromotive Force and Current. (Illustrated.) By Prof. Elihu Thomson, of Lynn, Mass. Discussion by Edward Weston, Prof. M. M. Garver, Dr. Otto A. Moses, Joseph Wetzler, C. O. Mailloux, J. P. Wintringham, Dr. Louis Duncan, George H. Stockbridge..... 269

The Relation Between the Initial and Average Efficiency of Incandescent Electric Lamps. (Illustrated.) By Wm. H. Peirce, of New York City. Discussion by Prof. Edward L. Nichols..... 293

The Efficiency of the Arc Lamp. (Illustrated.) By Hatsuné Nakano, of Cornell University, with Introductory Note by Prof. Edward L. Nichols. Discussion by Prof. Elihu Thomson, Prof. M. M. Garver, Edward Weston, Prof. W. E. Geyer, Dr. Otto A. Moses..... 308

The Spiral Coil Voltameter. (Illustrated.) By Prof. Harris J. Ryan, of Ithaca, N. Y. Discussion by Edward Weston, Prof. Elihu Thomson, C. O. Mailloux, Dr. Otto A. Moses, E. T. Birdsall, Prof. Edward L. Nichols. 322

The Personal Error in Photometry. (Illustrated.) By Prof. Edward L. Nichols, of Ithaca, N. Y..... 335

On Modern Views With Respect to Electric Currents. (Illustrated.) By Prof. Henry A. Rowland, of Baltimore, Md..... 342

SPECIAL MEETING, June 25, 1889.

Some Recent Electrical Work on the Elevated Railroads, and its Bearing on the Rapid Transit Problem. (Illustrated.) By Leo Daft, of Plainfield, N. J. Discussion by Francis R. Upton, Charles G. Curtis, Joseph Wetzler, Prof. W. A. Anthony, C. O. Mailloux, T. Commerford Martin 359

SPECIAL MEETING, September 10th, 1889.

Alternating Current Motors: The Evolution of A New Type. (Illustrated.) By Lieut. F. Jarvis Patten, of New York City. Discussion by C. O. Mailloux, R. S. Dobbie, Lemuel Wm. Serrell, H. Ward Leonard, Dr. Allan V. Garratt, E. P. Clark, Edward P. Thompson, T. Commerford Martin, W. Forman Collins, Dugald C. Jackson, Charles J. Reed, E. T. Birdsall, Ludwig Gutmann, Dr. Schuyler S. Wheeler 388

SPECIAL MEETING, October 15th, 1889.

Electrical Notes of a Transatlantic Trip. By Thomas D. Lockwood, of Boston, Mass. Discussion by Franklin L. Pope, Dr. Allan V. Garratt, T. Commerford Martin, G. L. Addenbrooke 411

SPECIAL MEETING, October 29th, 1889.

Some Methods of Regulating Accumulators in Electric Lighting. (Illustrated.) By George B. Prescott, Jr. Discussion by Townsend Wolcott, T. C. Martin, John W. Howell, Joseph Wetzler, Ralph W. Pope .....

Remarks of Professor Elihu Thomson at the Engineers' Banquet, London, England, June 13, 1889 483

INDEX.

AUTHORS OF PAPERS AND PARTICIPANTS IN DISCUSSIONS.

Abdank-Abakanowicz B. 12, 13, 17, 18, 23, 134, 144
Acheson, Edward G 74, 98, 101, 102, 103, 104, 105
Addenbrooke, G. L. 428, 435
Anthony, Prof. W. A. 381, 383
Batcheller, B. C. 181
Birdsall, E. T. 65, 100, 101, 105, 200, 338, 407
Bradley, Charles S. 58
Brown, Alexander S. 205, 212, 213
Brown, Jo. Stanford 66, 135
Child, Charles T. 184
Collins, W. Forman 404, 405
Compton, Prof. Alfred G. 517
Clark, E. P. 401
Crocker, Francis B. 6, 8, 9, 61, 132, 234, 237, 252, 253, 257, 262
Curtis, Charles G. 378, 381, 387
Cushman, Holbrook 105
Cuttriss, Charles 104, 106
Davidson, E. C. 133
Daft, Leo. 359, 378, 381, 382, 383, 387
Duncan, Dr. Louis. 217, 230, 231, 233, 234 235, 236, 289
Dobbie, R. S. 200, 398, 399
Delany, Patrick B 127, 128, 129, 130, 134, 506, 514, 515, 517
Edgar, C. L. 65
Garratt, Dr. Allan V. 104, 105, 400, 406, 426
Garver, Prof. M. M. 286, 318
Geyer, Prof. Wm. E. 2, 6, 7, 8, 9, 10, 11, 17, 18, 103, 320
Gutmann, Ludwig. 407, 409
Hamilton, Leonidas Le C. 100
Healy, Clarence L. 515
Hering, Carl. 7, 18, 20, 22
Howell, John W. 63, 65, 480
Jackson, Dugald C. 405
Jenks, W. J. 26, 58, 60, 61, 66, 67
Jones, Francis W. 73, 98, 104, 106
Kintner, Charles J. 181, 134
Leonard, H. Ward 399, 402, 403
Lockwood, Thomas D. 411, 436
Lyne, Lewis F. 62
Mailloux, C. O. 8, 23, 24, 109, 126, 128, 129, 132, 133, 134, 135, 197, 211, 214, 232, 258, 259, 288, 331, 333, 382, 384, 398, 400, 402, 405
Martin, T. Commerford 23, 157, 190, 202, 386, 387, 403, 407, 409, 410, 426, 480, 482, 484, 485, 518
Mayer, Prof. Alfred M. 6, 18
Michaelis, Major Otho E. 1, 6, 10, 11, 17, 18, 23, 24, 252
Moses, Dr. Otto A. 10, 11, 23, 98, 99, 100, 191, 194, 195, 196, 199, 286, 287, 320, 333
Nakano, Hatsuné 308
Nichols, Prof. Edward L. 188, 191, 194, 198, 201, 213, 233, 259, 307, 308, 318, 320, 384, 385, 502
Patten, Lieut. F. Jarvis 111, 127, 128, 129, 131, 132, 133, 388, 398, 399, 400, 401, 402, 403, 404, 405 408, 410
Peirce, Wm. H. 212, 293, 307

Phelps, George M.....58, 62, 67
Pope, Franklin L.....425, 435, 436, 438
Pope, Ralph W.....1, 25, 58, 62, 68, 106, 109, 127, 128, 144, 481, 482, 515, 517
Prescott, George B., Jr.....210, 213, 233, 235, 236, 318, 381, 439, 479, 480, 504
Reed, Charles, J.....405, 491
Roberts, Prof. Edward P.....60, 66, 230, 231, 259
Rowland, Prof. Henry A.....343
Ryan, Prof. Harris J.....322
Serrell, Lemuel Wm.....101, 105, 399
Stockbridge, George H.....290
Thompson, Edward P.....402
Thomson, Prof. Elihu.....213, 216, 229, 230, 231, 260, 263, 269 286, 287, 289, 292, 318, 331, 334, 483
Upton, Francis R.....64, 190, 195, 196, 378, 381, 382, 386, 387
Vansize, W. B.....213
Vander Weyde, Dr. P. H.....7, 10, 22
Weston, Edward.....253, 259, 286, 291, 293, 319, 329, 332
Wheeler, Dr. Schuyler S.....6, 8, 9, 23, 61, 67, 198, 201, 253, 410
Wetzler, Joseph.....102, 193, 257, 287, 380, 481
Wiegand, H.....217
Wintringham, J. P.....289
Wirt, Charles.....67
Wolcott, Townsend.....10, 18, 231, 232, 252, 253, 479

TITLES OF PAPERS AND TOPICS DISCUSSED.

Abdank Integraph.....13
Abdank Magnetic Call.....13
Accumulators in Electric Lighting, Some Methods of Regulating.....488
Adjustment, Telegraph Line.....506
Alternating Current Motors; The Evolution of a New Type (*Lieut. F. J. Patten*).....388
Alternating and Direct Currents, The Geyer-Bristol Meter for.....2
Alternating Current Motor, Mordey.....408
Andrews and Watson Call.....14
Arc Lamp, The Efficiency of the.....308
Artificial Illumination, Efficiency of Methods.....158
Automatic Temperature Regulator.....33
Average and Initial Efficiency of Incandescent Electric Lamps, Relation between the.....293

Batteries Inherent Defect of Lead Secondary.....205
Batteries, Secondary. Some Results with, in Train Lighting.....205
Bristol-Geyer Meter for Direct and Alternating Currents.....2

Call, Abdank Magnetic.....13
Call, Andrews and Watson.....14
Cardew Voltmeter.....2, 7, 10
Cell, Floating Electrolytic.....33
Cell, Note on a New Gravity.....514
Chemical Meter, Six Years Practical Experience with the Edison's.....26
Coils, Compensating, in Electrolytic Meter.....35
Coil Voltameter, The Spiral.....322
Compensating Coils in Electrolytic Meter.....35
Currents, Direct and Alternating, The Geyer-Bristol Meter for.....2

Defects of Lead Secondary Batteries, Inherent.....205
Direct and Alternating Currents, The Geyer-Bristol Meter for.....2

Edison Chemical Meter; Six Years Practical Experience with the 26
Efficiency of the Arc Lamp, The (*H. Nakano*) 308
Efficiency and Form of Incandescent Filaments 491
Efficiency of Incandescent Electric Lamps, Relation between the Initial and Average 293
Efficiency of Methods of Artificial Illumination. (*Prof. E. L. Nichols*) 158
Electric Currents, Modern Views with respect to 342
Electric Lighting, Some Methods of Regulating Accumulators in 438
Electrical Notes of a Transatlantic Trip. (*T. D. Lockwood*) 417
Electrical Work on the Elevated Railroads and its Bearing on the Rapid Transit Problem, Some Recent 359
Electric Lamps, The Relation between the Initial and Average Efficiency of Incandescent 293
Electric Motor Meter 29
Electric Motor Regulation. (*F. B. Crocker*) 237
Electrolytic Cell, Floating 33
Electrolytic Meter 31
Electrolytic Meter, Compensating Coils in 35
Electrolytic Meter, Recording 32
Electro-Mechanical Meter, Recording 31
Elevated Railroads, Some Recent Electrical Work on 359
Error in Photometry, The Personal 335
Evolution of a New Type Alternating Current Motor 388

Filaments, Form and Efficiency of Incandescent 491
Floating Electrolytic Cell 33
Forbes's Meter 9, 10
Form and Efficiency of Incandescent Filaments. (*C. J. Reed*) 491

Galvanometer Recorder 30
Geyer-Bristol Meter for Direct and Alternating Currents. (*Prof. W. E. Geyer*) 2
Gravity Cell, Note on a New 514

Incandescent Electric Lamps, Relation between the Initial and Average Efficiency of 293
Incandescent Filaments, Form and Efficiency of 491
Induced Electromotive Force and Current, Magnetism in its Relation to 289
Inherent Defects of Lead Secondary Batteries. (*Dr. L. Duncan & H. Wiegand*) 205
Illumination, Efficiency of Methods of Artificial 158
Initial and Average Efficiency of Incandescent Electric Lamps, Relation between the 293
Integraph, Abdank 13
Integraph, James Thomson's 18

Lamp, The Efficiency of the Arc 308
Lamps, The Relation between the Initial and Average Efficiency of Incandescent Electric 293
Lead Secondary Batteries, Inherent Defects of 205
Lightning Arresters and the Photographic Study of Self-Induction. (*E. G. Acheson*) 74, 135, 148
Lighting, Some Results with Secondary Batteries in Train 205
Line Adjustment, Telegraph 506

Magnetic Call, Abdank 13
Magnetism in its Relation to Induced Electromotive Force and Current. (*Prof. E. Thomson*) 289
Melograph 30
Melotrope 30
Methods of Artificial Illumination, Efficiency of 158
Methods of Regulating Accumulators in Electric Lighting, Some 438
Meter, Compensating Coil in Electrolytic 35
Meter, Six Years Practical Experience with the Edison Chemical 26

Meter, Electric Motor 29
Meter, Electrolytic 31
Meter, Forbes's 9, 10
Meter for Direct and Alternating Currents, The Geyer-Bristol 2
Meter, Recording Electro-Mechanical 31
Meter, Recording Electrolytic 32
Modern Views with respect to Electric Currents (*Prof. H. A Rowland*) 342
Mordey Alternating Current Motor 403
Motor, Electric, Regulation 237
Motor Meter, Electric 29
Motor, Mordey Alternating Current 403
Motors, Alternating Current, The Evolution of a New Type 388
Multiplex Telegraphy, A New System of 111

New Gravity Cell, Note on 514
New System of Multiplex Telegraphy. (*Lieut. F. J. Patten*) 111
New Type Alternating Current Motor, The Evolution of a 388
Note on a New Gravity Cell. (*P. B. Delany*) 514
Notes on a Transatlantic Trip, Electrical 411

Personal Error in Photometry, The (*Prof. E. L. Nichols*) 335
Photographic Study of Self-Induction 90, 135, 146
Photometry, The Personal Error in 335

Railroads, Some Recent Electrical Work on the Elevated and its bearings on the Rapid Transit Problem 359
Recent Electrical Work on the Elevated Railroads and its Bearings on the Rapid Transit Problem 359
Recorder, Galvanometer 30
Recording Electrolytic Meter 32
Recording Electro-Mechanical Meter 31
Regulating Accumulators in Electric Lighting, Some Methods of 488
Regulation, Electric Motor 237
Regulator, Automatic Temperature 33
Relation between the Initial and Average Efficiency of Incandescent Electric Lamps. (*Wm. H. Peirce*) 293
Results with Secondary Batteries in Train Lighting, Some 205

Secondary Batteries, Inherent Defects of Lead 205
Secondary Batteries in Train Lighting, Some Results with 205
Self-Induction, Photographic Study of 90, 135, 146
Six Years' Practical Experience with the Edison Chemical Meter. (*W. J Jenks.*) 26
Some Method of Regulating Accumulators in Electric Lighting. (*Geo. B. Prescott, Jr.*) 488
Some Recent Electrical Work on the Elevated Railroads and its Bearing on the Rapid Transit Problem. (*Leo Daft*) 359
Some Results with Secondary Batteries in Train Lighting. (*Alexander S. Brown*) 205
Spiral Coil Voltameter, The (*Prof H. J. Ryan*) 322
System of Multiplex Telegraphy, A New 111

Telegraphy, A New System of Multiplex 111
Telegraph Line Adjustment. (*P. B. Delany*) 506
Temperature Regulator, Automatic 33
Thomson, James, Integraph 18
Train Lighting, Some Results with Secondary Batteries in 205
